CHAMBER OF COMMERCE FINLAND-SWITZERLAND

Zurich, 4 November 2021

New people/responsibilities and new offices in Zurich and Helsinki

Over the past two years, our Chamber has grown rapidly. We have reached 170 members this year – the highest number in the Chamber’s 48 years history! At the same time, we have digitised the Chamber and reorganised our office work and tasks of our Board members to better meet the needs of our members.

New people and new responsibilities as of 1 November 2021:

Mirjam Loertscher, our former Executive Manager, is now **Advisor of the Board**. She will be responsible for digital marketing and new member acquisition on the Board level. She remains the main contact for the Nordic Chambers and the Nordic network coordination in Switzerland and Europe.

As further reinforcement for the Board, **Yrjö Närhinen** and **Anu-Maaria Calamnius-Puhakka** have made themselves available to serve **as Advisory Board Members** with the option to be elected to the Board at the next General Assembly in 2022.

Our new first point of contact is Maarit Seppä, as Executive Secretary. She is now responsible for the day-to-day business of the Chamber and supports the Board. Maarit is member of the Chamber since a long time and brings strong project management and market intelligence skills with her. Please find her contact details as follows:
