WEBINAR
INVITATION

OPPORTUNITIES FOR NORDIC HEALTHCARE COMPANIES IN SWITZERLAND

Powering Innovation with an Interdisciplinary Network

29 March 2022 | Webinar

POWERING INNOVATION WITH AN INTERDISCIPLINARY NETWORK

The Swedish Swiss Chamber of Commerce, the Nordic Chambers in Switzerland and Greater Geneva Bern area (GGBa) in collaboration with regional chambers and trade organisations in the Nordics have the pleasure of inviting you to a webinar with sitem-insel on the topic “sitem-insel Bern: Powering Innovation with an Interdisciplinary Network – Opportunities for Nordic Healthcare Companies in Switzerland”.

Sitem-insel is the Swiss Institute for Translational and Entrepreneurial Medicine based on the Insel Campus Bern, close to one of the largest university hospital and medical faculty in Switzerland. Sitem-insel is a catalyst for a multidisciplinary collaborative approach to unlocking ‘bench to bedside’ innovation. It brings academia, government, industry, and science together in one place, with one goal: operational excellence in translational research.

Find out more about collaboration opportunities for Nordic start-ups and SME's with our invited speakers from Sitem-insel, GGBa, Bern Economic Development Agency and AlveoliX.
